

Xe\$Pro

Thanks for downloading a Print and Play copy
of Xenon Profitier: a thematic card game of air
separation through cryogenic distillation!

Materials to Print

- Xenon Profitier Alpha rules
- Element Cards (108) *elementaircardsaplha.pdf*
- Contract Cards (27) *xenoncardaplha.pdf*
- Upgrade Cards (26)
- Starting System Cards (8)
- Distillation Base (4) *distillbasentokenalpha.pdf*
- Xenon Privilege Token

Be sure to print out all three main files (*elementaircard-saplha.pdf xenoncardaplha.pdf distillbasentokenalpha.pdf*) and cut out all cards before playing.

The Distillation Base file is double-sided, and includes further instructions for printing.

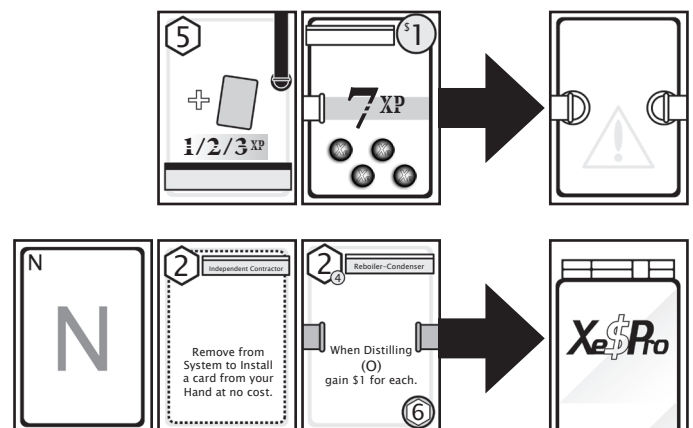

Materials Needed

- Generic Chips or Tokens to count as Money (\$)
- 5 Tokens in 4 different player colors (Bid Tokens)

Also, feel free to cut out the awesome Xe\$Pro logo at the top of this page to decorate your prototype!

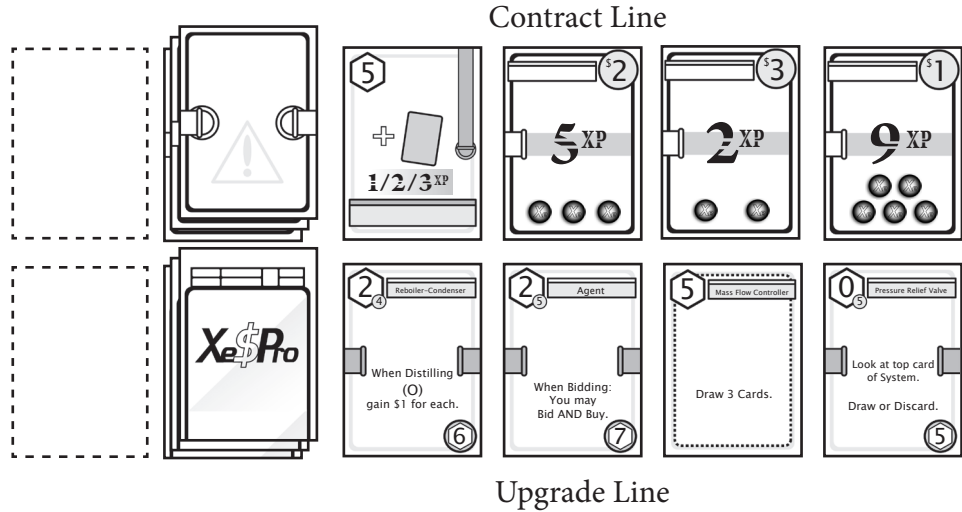

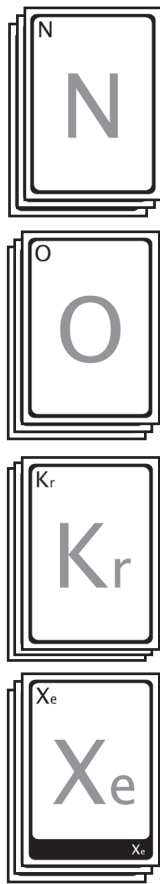

Optional Card Backs

The Contract Deck and System Deck card-back files are also included in the folder. These two files are optional, but can be used to easily make a distinction between the two types of cards. They are set up to be printed easily on the reverse side, but can also be printed and cut-out separately if using card sleeves. Contracts and Pipeline cards receive the Contract back. Element and all Upgrade cards receive the standard System back.

Basic Setup

AIR Packet

2-Player Set-up:
Only 3 Cards per line.

Distillation Facility Standard Layout

Installed Upgrades
