

Dear player,

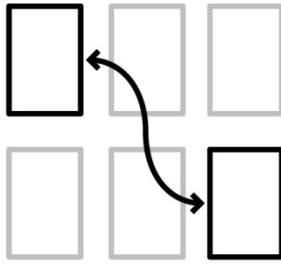

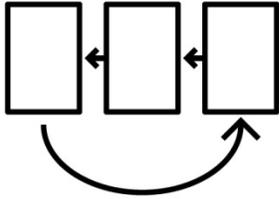

Thank you for taking the time to print, assemble, and play this Print and Play version of Chicken Roundup. This file contains 105 card faces which are sized for poker style cards and so you will need two decks of poker cards and card sleeves to complete assembly. When printing this file it is best to turn off scaling in the print dialogue window.

If you wish to give feedback an email can be sent to the address below. Both positive and negative feedback is appreciated.

Thank you again.
