Barista Bustle is packed! So packed, there's no time to place orders for the most select coffee in town. Customers enter hoping for their favorites. Baristas recognize their Customers and serve them their favorite drink to score the most \$Tips.

Tips:

	C	E	L
P	6	2	0
M	2	2	4
S	1	3	2
T	0	2	4

Setup:
Shuffle Customers

2 players: fill out 2x3
3 players: fill out 3x3
4-5 players: fill out 4x3

Add remaining customers to Line outside

Turn:

Phase 1:

At the start, and every time after that players are all out of drinks:

* Refill restaurant tables with Customers from the Queue outside. Fill in order of empty table starting with 1.

Phase 2:

Each player takes 2 drinks secretly, reveals all at once.

With drinks revealed, each player secretly selects a Section Number to visit, then all reveal.

Players move their Barista to that number.

Collisions: 2 or more Baristas in the same spot spill a drink. They choose which drink to spill. Roll D4 for collision. The table from that direction (1,2,3,4 NW NE SE SW) leaves the restaurant

After resolving collisions, players server drinks clockwise from order of lead barista.

When all drinks are served, tally tips.

Baristas serving drinks to the same table split the tips for the total of that table.

The tip value is from the tip chart based on the drink + customer type.

After tallying tips, remove all Customers served from the game. New Customers will replace these empty tables from Phase 1.

The game ends when all Customers are gone from tables and no Customers are in the Queue outside.

Winner is Barista with most in Tips!
